

EliteBook 2560p Notebook PC

Lighten Your Workload

HP's smallest and lightest EliteBook presents a 12.5-inch diagonal display, new professional design, standard voltage processor, full-size hard drive and an optical drive.

HP recommends Windows® 7.

Small size, great design

Debuting in a platinum color, the full-featured HP EliteBook 2560p redefines thin and light notebooks. This PC is designed to meet tough military standards (MIL-STD-810G)¹ for vibration, dust, humidity, altitude and high temperature. The built-in keyboard drain helps prevent damage from minor spills, and with a starting weight of 4.02 lb (1.82 kg)² you'll confidently carry this PC to every appointment.

Full power

Create documents, presentations and spreadsheets and quickly share them with co-workers. The new Intel architecture features the 2nd generation Intel® Core™ i7³ and i5³ dual-core processors. Benefit from incredible performance and responsiveness with a new solid state drive or a fast 7200 rpm hard disk drive up to 500 GB.⁴ Despite its compact size, you can store plenty of data.

Benefit from exciting processor performance features like Intel® Turbo Boost Technology 2.0.⁵ Help trim IT costs with remote manageability through Intel® Core™ processors with vPro™ Technology.⁶

Run demanding graphics with Intel® HD Graphics 3000 which delivers responsive performance and rich media capabilities.

Stay connected and charged

HP's extensive wireless technologies^{7,8} have you covered, too. Collaborate clearly using SRS Premium Sound, dual array microphone and optional HD webcam.^{9,10,11} The HP EliteBook 2560p also has multiple battery options for lightweight, extended battery life configurations or 3-year battery warranty.

Built to simplify

With HP QuickWeb¹² you can tap into fast, convenient and more secure access to the Internet, email, contacts and calendar all at the touch of a button and without long boot-up times. With HP Connection Manager,¹³ you get full control over your wireless connections through a single user interface.

Built to protect

HP ProtectTools¹⁴ is a portfolio of security technologies, that's easy to use, robust and can be centrally managed by businesses of all sizes across HP and non-HP client PCs.

EliteBook 2560p Notebook PC

HP recommends Windows® 7.

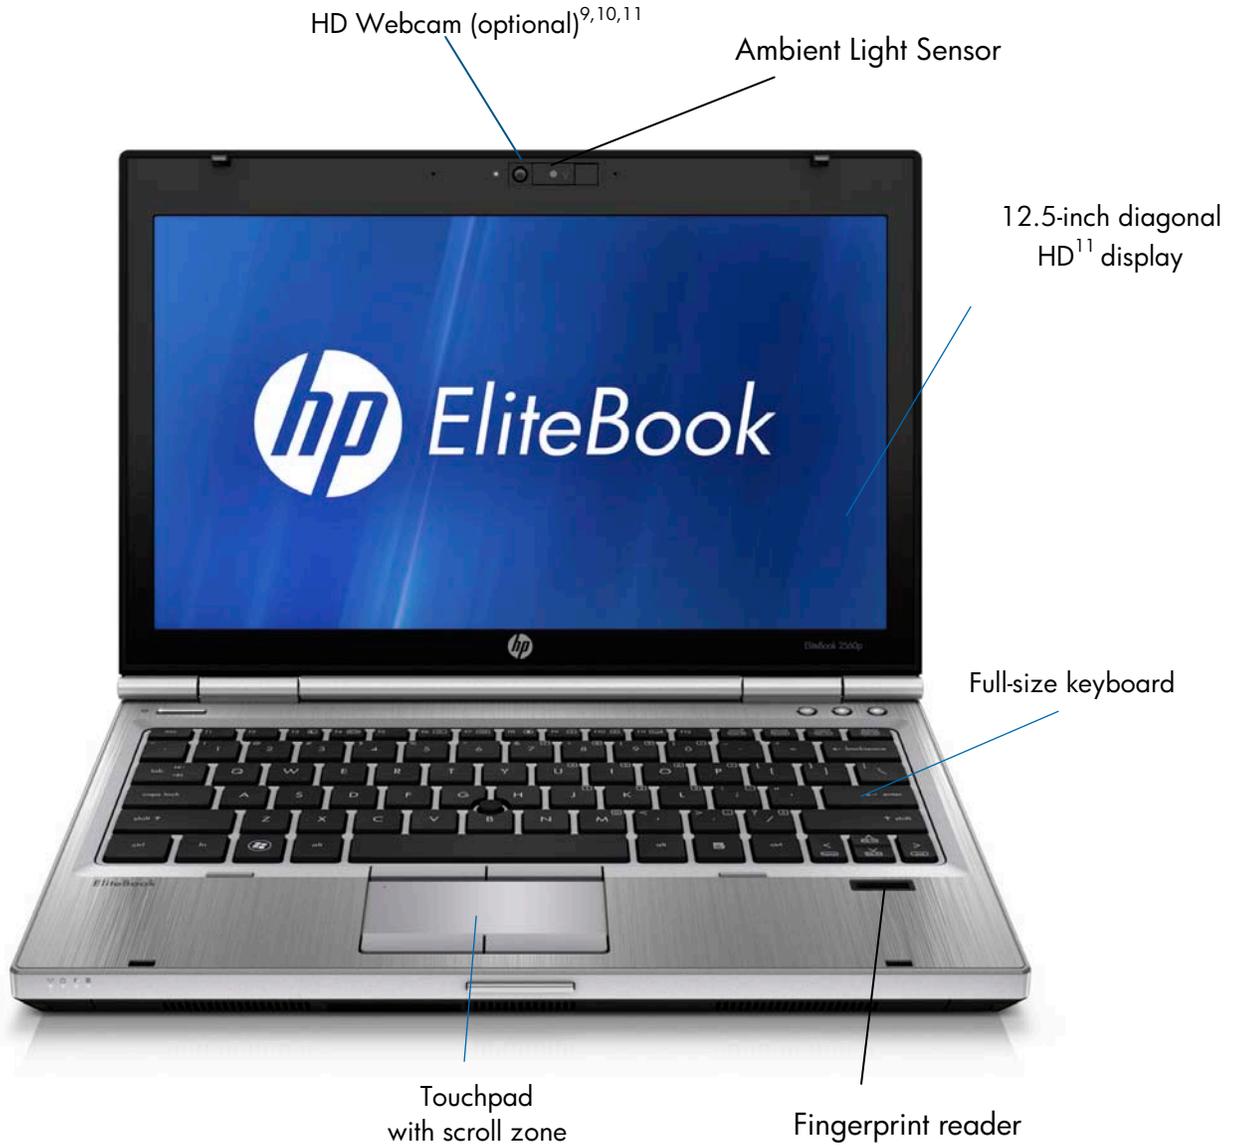

SPECIFICATIONS

Operating system	Preinstalled: Genuine Windows® 7 Professional ¹⁵ Genuine Windows 7 Home Premium (64-bit) ¹⁵ FreeDOS	Supported: Genuine Windows 7 Enterprise Genuine Windows 7 Ultimate Genuine Windows Vista Enterprise ¹⁶ Genuine Windows Vista Business ¹⁶ Genuine Windows XP Professional Certified: SUSE Linux Enterprise Desktop
Processor	2 nd generation Intel® Core™ i7 and i5 mobile processors ³ with Turbo Boost Technology ⁵	
Chipset	Mobile Intel QM67 Express Chipset (vPro ⁵ support)	
Memory	DDR3 SDRAM, 1333 MHz, two slots supporting dual-channel memory, ¹⁷ 2/4/8 GB SODIMMs, up to 16 GB total ¹⁸	
Internal storage^{4,9}	250/320/500 GB 7200 rpm SMART SATA II HDD, 320 GB 7200 rpm SED (Self Encrypting Drive), or 128/160 GB SSD; HP 3D DriveGuard ¹⁹	
Removable storage	9.5-mm SATA optical drive: DVD+/-RW SuperMulti DL Drive, ^{9,20} DVD-ROM Drive, ⁹ or Weight saver	
Display	12.5-inch diagonal LED-backlit HD ¹¹ anti-glare (1366 x 768)	
Graphics	Intel® HD Graphics 3000 ¹¹	
Audio/Visual	High Definition Audio (SRS Premium Sound), stereo speakers, combo headphone/microphone jack, integrated dual-microphone array, optional HD Webcam ^{9,10,11}	
Wireless Support	Optional HP hs2340 HSPA+ Mobile Broadband Module; ^{8,9} Optional HP un2430 EV-DO/HSPA Mobile Broadband; ^{9,21} Intel Centrino 802.11 a/b/g/n, ⁷ Broadcom 802.11 a/b/g/n or b/g/n; ⁷ HP Integrated Module with Bluetooth® v2.1 + EDR Wireless Technology; HP Connection Manager ¹³	
Communications	Integrated Intel 82579LM Gigabit Network Connection (vPro ⁶), 56K v.92 modem	
Ports and Connectors	(2) USB 2.0 (1 charging), (1) eSATA/USB 2.0 combo, (1) VGA, DisplayPort, combo headphone/microphone jack, power connector, RJ-11/modem, RJ-45/Ethernet, docking connector for HP 2560 Series Docking Station	
Expansion Slots	ExpressCard/34 slot, Secure Digital slot (SD/MMC)	
Input Device	Full-sized spill-resistant keyboard with drains, HP DuraKeys; touchpad with scroll zone and gestures support, point stick, launch buttons (wireless on/off, HP QuickWeb, ¹² volume mute)	
Software (Windows OS only)	HP Power Assistant, ²² HP Recovery Manager, HP Connection Manager, ¹³ HP HotKey Support, HP Support Assistant, HP QuickWeb, ¹² HP DayStarter, ²³ Microsoft® Office 2010 Preloaded—Purchase Key, ²⁴ Intervideo WinDVD (select models), Roxio Secure Burn (select models), ²⁵ Roxio MyDVDE 10 SE (select models), Norton Internet Security 2011, ²⁶ Skype ¹⁰	
Security	Standard: Central Management for HP ProtectTools, ²⁷ Central Management capable, TPM Embedded Security Chip 1.2, Enhanced Pre-Boot Security, HP Spare Key (requires initial user setup), HP Disk Sanitizer, ²⁸ Drive Encryption for HP ProtectTools, Credential Manager for HP ProtectTools, ¹⁴ File Sanitizer for HP ProtectTools, ²⁸ integrated Smart Card Reader, security lock slot Optional: HP Fingerprint Sensor, ⁹ HP Privacy Filter, ⁹ Computrace Pro for HP ProtectTools ²⁹	
Dimensions (h x w x d)	1.08 in (at front) x 12.02 in x 8.23 in/2.7 cm (at front) x 30.5 cm x 20.9 cm	
Weight	Starting at 4.02 lb (1.82 kg) without optical drive; 4.24 lb (1.92 kg) with DVD-ROM drive (weight will vary by configuration)	
Power	9-cell (100 WHr) Lithium-Ion battery, 6-cell (62 WHr) Lithium-Ion battery, or HP Long Life 6-cell (55 WHr) battery; ³⁰ 65W Smart AC Adapter, HP Fast Charge ³¹	
Expansion Solutions	HP 2560 Series Docking Station ⁹	
Warranty	Limited 3-year and 1-year warranty, 1-year limited warranty on primary battery. Optional HP Care Pack Services ³² are extended service contracts which go beyond your standard warranties. For more details visit: www.hp.com/go/lookuptool .	

EliteBook 2560p Notebook PC

HP recommends Windows® 7.

1. MIL-STD-810G testing was not intended to demonstrate fitness for U.S. Department of Defense contracts or for military use. Test results are not a guarantee of future performance under these test conditions.
2. Weight will vary by configuration.
3. 64-bit computing on Intel architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. See www.intel.com/info/em64t for more information. Dual/Quad Core is designed to improve performance of multithreaded software products and hardware-aware multitasking operating systems and may require appropriate operating system software for full benefit. Not all customers or software applications will necessarily benefit from use of this technology. Intel's numbering is not a measurement of higher performance.
4. For hard drives, GB = 1 billion bytes. Actual formatted capacity is less. Up to 8GB of memory is reserved for system recovery software.
5. Intel® Turbo Boost 2.0 technology requires a PC with a processor with Intel Turbo Boost 2.0 capability. Intel Turbo Boost 2.0 performance varies depending on hardware, software and overall system configuration. See www.intel.com/technology/turboboost for more information.
6. Some functionality of Intel vPro, such as Intel Active management technology and Intel Virtualization technology, requires additional 3rd party software in order to run. Availability of future "virtual appliances" applications for vPro technologies is dependent on 3rd party software providers. Compatibility with future "virtual appliances", Microsoft Windows Vista and Windows 7 operating systems is yet to be determined.
7. Wireless access point and Internet service required and sold separately. Availability of public wireless access points limited.
8. Wireless use requires separately purchased service contract. Check with local service provider for coverage area and availability in your area. Limited to mobile network operator coverage areas. Separately purchased mobile network operator service is required.
9. Sold separately or as an optional feature.
10. Internet access required.
11. HD content required to view HD images.
12. HP QuickWeb is accessible when the notebook is off in Windows based systems. Internet access is required. Timing may vary depending on the system configuration. To enable the feature following the removal of the battery, reboot the notebook prior to subsequent use.
13. 4G compatibility with HSPA+ and Wimax.
14. HP ProtectTools functionality requires Microsoft Windows.
15. Systems may require upgraded and/or separately purchased hardware to take full advantage of Windows 7 functionality. See www.microsoft.com/windows/windows-7/ for details.
16. Certain Windows Vista product features require advanced or additional hardware. See www.microsoft.com/windowsvista/getready/hardwarereqs.mspx Windows Vista Upgrade Advisor can help you determine which features of Windows Vista will run on your computer. To download the tool, visit www.windowsvista.com/upgradedadvisor.
17. Maximized dual-channel performance requires SODIMMs of the same size and speed in both memory slots.
18. Maximum memory capacities require Windows 64-bit operating systems or Linux. With Windows 32-bit operating systems, memory above 3 GB may not all be available due to system resource requirements.
19. Microsoft Windows required.
20. As HD DVD is a new format containing new technologies, certain disc, digital connection, compatibility and/or performance issues may arise, and do not constitute defects in the product. Flawless playback on all systems is not guaranteed. In order for some HD-DVD titles to play, they may require an HDMI digital connection and your display may require HDCP support. Blu-ray disks cannot be played on this drive. Note that DVD-RAM cannot read or write to 2.6 GB Single Sided/5.2 GB Double Sided—Version 1.0 media. Actual speeds may vary. Don't copy copyright-protected materials. Double Layer discs can store more data than single layer discs; discs burned with this drive may not be compatible with many existing single-layer DVD drives and players. Blu-ray/HD DVD player and SuperMulti DVD burner data transfer rates up to 6,000 KB/s (CD read/write), 21,632 KB/s (DVD read/write), 26,340 KB/s (BD read) and 13,383 KB/s (HD DVD read).
21. Gobi Wireless Technology Disclaimer: Gobi mobile broadband use requires separately purchased service contract. Check with service provider for coverage and availability in your area. Connection speeds will vary due to location, environment, network conditions, and other factors.
22. Power calculations and cost calculations are estimates. Results will vary based on variables, which include information provided by the user, time PC is in different power states (on, standby, hibernate, off), time PC is on battery or AC, hardware configuration, variable electricity rates and utilities provider. HP advises customers to use information reported by HP Power Assistant for reference only and to validate impact in their environment. Environmental calculations were based on U.S. EPA eGrid 2007 data found at www.epa.gov/egridd/. Regional results will vary. Microsoft Windows required.
23. Requires Microsoft Outlook. User must opt-in to activate feature.
24. Includes reduced functionality versions of Word and Excel. Purchase of Product Key required to activate full Office 2010 suite available at participating resellers/retailers and www.office.com.
25. Do not copy copyright-protected materials.
26. Includes Norton software. Internet access required. First 60 days included. Subscription required for live updates afterward.
27. In order to deploy policies the client needs to be connected to the network. Requires connectivity to the DigitalPersona server to receive updated policies. System access may not prevent users from logging into the system on the first attempt if policy updates haven't yet been received and applied. This functionality blocks network access from the user's PC.
28. For the use cases outlined in the DOD 5220.22-M Supplement.
29. Support for Computrace is built into the notebook firmware, and is automatically activated when a subscription is purchased. Subscriptions can be purchased for terms ranging from one to five years. Check with Absolute for availability in your country.
30. Battery life will vary depending on the product model, configuration, loaded applications, features, use, wireless functionality and power management settings. The maximum capacity of the battery will naturally decrease with time and usage. See MobileMark07 battery benchmark www.bapco.com/products/mobilemark2007 for additional details.
31. Fast Charge Technology recharges your battery up to 90% within 90 minutes when the system is off. Fast Charge Technology does not apply to 9-cell battery. When the PC is powered on, charge time may increase and will vary based on the workload of the notebook PC.
32. Service levels and response times for HP Care Packs may vary depending on your geographic location. Service starts on date of hardware purchase. Restrictions and limitations apply. For details, visit www.hp.com/go/lookuptool.
